

SCHOOL-DEVELOPED AND NESA-ALIGNED - NOT NESA-APPROVED

Year 9 Food Selection and Health - Teacher Program

Food Technology 7-10 | Focus area: Food selection for nutrition and health | Version 1.0.0

Course	Year 9 Food Technology focus-area unit	Cohort	Year 9
Syllabus	NSW Food Technology 7-10 Syllabus (2025)	Implementation	Mandatory Year 9 from 2028; 2026-27 local early use Teacher to confirm
Sequence	20 periods 6 modules 18 sections 180 MCQs 18 long responses	Duration	60 minutes per period and local timetable Teacher to confirm
Issue/state	v1.0.0 local program candidate uncommitted, unpushed and undeployed	Balance	9 Site/theory 6 Project/folio 5 Practical; practical details Teacher to confirm

Authority boundary: This program is a concise teaching map of the integrated local website. It does not authorise practical work, replace current WHS directions, confirm a timetable, or approve the conflicted HelloEats task. This eleven-week focus-area unit is not a complete 100-hour or 200-hour elective.

Official Stage 5 outcomes - Food Technology 7-10 (2025)

Outcome	Exact official statement
FT5-SAF-01	applies safe work and management practices through food design and production processes
FT5-COM-01	communicates ideas, concepts and solutions in food design and production contexts
FT5-FPP-01	selects and justifies the use of food preparation and presentation practices
FT5-USE-01	selects and applies ingredients, techniques and equipment in food design and production contexts
FT5-IET-01	explains industry practices and emerging technologies used in food design and production
FT5-NSA-01	assesses how nutrition, food selection and availability influence individuals and communities
FT5-ENV-01	analyses relationships between food production systems, sustainability and society

Teacher to confirm before classroom use

- Delivery year and the WWHS decision to use the 2025 syllabus before mandatory Year 9 implementation in 2028.
- Local timetable, period length and placement of this adaptable 20-period sequence.
- Approved practical activities/recipes, ingredients, allergens, equipment, PPE, facilities, supervision, risk controls, ordering and clean-down.
- Whole-course context and how other focus areas and the practical-majority requirement are met.

Assessment boundary: The published 2026 handbook lists Class Practicals ongoing 60%, Assignment Term 1 Week 10 20%, and Yearly Examination Term 4 Week 3 20%. The attached HelloEats notice conflicts with the handbook and remains a draft learning context; task number, timing, 2025-outcome alignment, name, criteria and submission are Teacher to confirm. See [assessment.html](#) and the official handbook hub.

Teaching sequence - periods 1-10

Planned sequence only. Local dates, 60-minute duration and all practical activities/recipes remain Teacher to confirm. Website work saves locally and is not a submission system.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	M1.1 Personal hygiene and readiness	Use the section visual and media/equivalent. Complete 'Contamination-chain photo audit' and Package 1.1. Begin with the Module 1 deck.	Safe personal preparation and hygiene in food design and production.	10 MCQs + feedback; one scaffolded response; save 'M1.1 Readiness control plan'. FT5-SAF-01, FT5-COM-01, FT5-FPP-01, FT5-USE-01.
2	Practical	M1.2 Contamination, temperature and food safety	Use the section visual and media/equivalent. Complete 'Bench-route control challenge' and Package 1.2. Practical only with a teacher-approved activity/recipe and current controls (TTC-P).	Food hazards and controls: contamination pathways, time and temperature.	10 MCQs + feedback; one scaffolded response; save 'M1.2 Hazard-route plan'. FT5-SAF-01, FT5-COM-01, FT5-FPP-01, FT5-USE-01.
3	Site/theory	M1.3 Safe decisions and incident response	Use the section visual and media/equivalent. Complete 'First-action decision carousel' and Package 1.3. Finish with the three-link module review. Use the matching puzzle for retrieval/repair.	Safe work decisions used to identify, report and respond to hazards.	10 MCQs + feedback; one scaffolded response; save 'M1.3 Near-miss redesign'. FT5-SAF-01, FT5-COM-01, FT5-FPP-01, FT5-USE-01.
4	Site/theory	M2.1 Six nutrients and their roles	Use the section visual and media/equivalent. Complete 'More than one nutrient' and Package 2.1. Begin with the Module 2 deck.	Nutrient characteristics, functions and contributions within varied food patterns.	10 MCQs + feedback; one scaffolded response; save 'M2.1 Nutrient-team lunch'. FT5-NSA-01, FT5-COM-01, FT5-IET-01.
5	Project/folio	M2.2 Energy, growth and repair	Use the section visual and media/equivalent. Complete 'Same energy, different contribution' and Package 2.2.	Energy, growth, repair, nutrient density and food-selection context.	10 MCQs + feedback; one scaffolded response; save 'M2.2 Context-based meal decision'. FT5-NSA-01, FT5-COM-01, FT5-IET-01.
6	Practical	M2.3 Digestion and nutrient absorption	Use the section visual and media/equivalent. Complete 'Digestive journey relay' and Package 2.3. Finish with the three-link module review. Practical only with a teacher-approved activity/recipe and current controls (TTC-P). Use the matching puzzle for retrieval/repair.	How digestion and absorption make nutrients available to the body.	10 MCQs + feedback; one scaffolded response; save 'M2.3 Journey of a mixed meal'. FT5-NSA-01, FT5-COM-01, FT5-IET-01.
7	Site/theory	M3.1 Ingredients, servings and nutrition panels	Use the section visual and media/equivalent. Complete 'Three-pass label scan' and Package 3.1. Begin with the Module 3 deck.	Australian label evidence: ingredients, allergens, serves and nutrition panels.	10 MCQs + feedback; one scaffolded response; save 'M3.1 Label evidence pathway'. FT5-NSA-01, FT5-COM-01, FT5-IET-01, FT5-ENV-01.
8	Project/folio	M3.2 Comparing foods fairly	Use the section visual and media/equivalent. Complete 'Comparison referee' and Package 3.2.	Fair comparison of like products using consistent units, purpose and evidence.	10 MCQs + feedback; one scaffolded response; save 'M3.2 Fair food comparison'. FT5-NSA-01, FT5-COM-01, FT5-IET-01, FT5-ENV-01.
9	Site/theory	M3.3 Marketing claims, ethics and health	Use the section visual and media/equivalent. Complete 'Thirty-second impression reset' and Package 3.3. Finish with the three-link module review. Use the matching puzzle for retrieval/repair.	Marketing, claims and ethical responsibilities in food-selection decisions.	10 MCQs + feedback; one scaffolded response; save 'M3.3 Claim-evidence-omission audit'. FT5-NSA-01, FT5-COM-01, FT5-IET-01, FT5-ENV-01.
10	Site/theory	M4.1 Active non-nutrients and food variety	Use the section visual and media/equivalent. Complete 'Variety evidence sort' and Package 4.1. Begin with the Module 4 deck.	Active non-nutrients, water, fibre, variety and food selection.	10 MCQs + feedback; one scaffolded response; save 'Food-choice reasoning'. FT5-NSA-01, FT5-IET-01, FT5-COM-01, FT5-ENV-01.

Evidence, feedback and support: Each section has 10 feedback-rich MCQs, one scaffolded long response, an Applied Learning Activity, a visual, a media/equivalent pathway and a named folio handoff. Use vocabulary banks, chunking, sentence stems and accessible response modes without lowering the evidence demand. Full routes, sources, adjustments and cross-links are retained in the machine manifest and site map.

Teaching sequence - periods 11-20

Planned sequence only. Local dates, 60-minute duration and all practical activities/recipes remain Teacher to confirm. Website work saves locally and is not a submission system.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Practical	M4.2 Nutrition across the lifecycle	Use the section visual and media/equivalent. Complete 'Lifecycle meal adaptation studio' and Package 4.2. Practical only with a teacher-approved activity/recipe and current controls (TTC-P).	Changing nutritional needs and food-selection priorities across life stages.	10 MCQs + feedback; one scaffolded response; save 'User needs and constraints'. FT5-NSA-01, FT5-IET-01, FT5-COM-01, FT5-ENV-01.
12	Project/folio	M4.3 Personal, social, cultural and digital influences	Use the section visual and media/equivalent. Complete 'Influence detective' and Package 4.3. Finish with the three-link module review. Use the matching puzzle for retrieval/repair.	Personal, social, cultural, economic and digital influences on selection.	10 MCQs + feedback; one scaffolded response; save 'Influences on selection'. FT5-NSA-01, FT5-IET-01, FT5-COM-01, FT5-ENV-01.
13	Site/theory	M5.1 Australian food-consumption patterns	Use the section visual and media/equivalent. Complete 'Pattern claim clinic' and Package 5.1. Begin with the Module 5 deck.	Responsible interpretation of Australian food-consumption evidence.	10 MCQs + feedback; one scaffolded response; save 'Using population evidence'. FT5-IET-01, FT5-NSA-01, FT5-ENV-01, FT5-FPP-01, FT5-COM-01.
14	Practical	M5.2 Convenience, delivery and food technology	Use the section visual and media/equivalent. Complete 'Convenience system map' and Package 5.2. Practical only with a teacher-approved activity/recipe and current controls (TTC-P).	Industry practices and technologies affecting access, safety, quality and trade-offs.	10 MCQs + feedback; one scaffolded response; save 'Technology and trade-offs'. FT5-IET-01, FT5-NSA-01, FT5-ENV-01, FT5-FPP-01, FT5-COM-01.
15	Project/folio	M5.3 Designing responsible food solutions	Use the section visual and media/equivalent. Complete 'Design decision matrix sprint' and Package 5.3. Finish with the three-link module review.	Food-design processes: need, criteria, solution, justification and evaluation.	10 MCQs + feedback; one scaffolded response; save 'Responsible food design'. FT5-IET-01, FT5-NSA-01, FT5-ENV-01, FT5-FPP-01, FT5-COM-01.
16	Site/theory	M6.1 Under- and overnutrition	Use the section visual and media/equivalent. Complete 'Pattern-mechanism-support triads' and Package 6.1. Begin with the Module 6 deck.	Undernutrition and overnutrition explained without judgement or diagnosis.	10 MCQs + feedback; one scaffolded response; save 'Nutrition patterns and support'. FT5-NSA-01, FT5-COM-01, FT5-FPP-01, FT5-ENV-01, FT5-SAF-01.
17	Site/theory	M6.2 Nutrition-related conditions and prevention	Use the section visual and media/equivalent. Complete 'Mechanism and claim clinic' and Package 6.2.	Food patterns, multiple risk factors, conditions and proportionate prevention.	10 MCQs + feedback; one scaffolded response; save 'Nutrition-related conditions'. FT5-NSA-01, FT5-COM-01, FT5-FPP-01, FT5-ENV-01, FT5-SAF-01.
18	Project/folio	M6.3 Australian guidance and the HelloEats challenge	Use the section visual and media/equivalent. Complete 'Draft HelloEats evidence sprint' and Package 6.3. Finish with the three-link module review. Use the matching puzzle for retrieval/repair.	Australian guidance and label evidence used to justify a food-design concept.	10 MCQs + feedback; one scaffolded response; save 'Draft HelloEats concept'. FT5-NSA-01, FT5-COM-01, FT5-FPP-01, FT5-ENV-01, FT5-SAF-01.
19	Practical	Teacher-approved food-solution application	If locally approved, produce or test one food solution under current room directions. Use the Module 5 design evidence and Module 6 guidance. Recipe, ingredients, equipment, PPE, allergens, facilities, supervision and risk controls are Teacher to confirm.	Application and evaluation of safe food-design and production practices in a locally authorised context.	Teacher observation if approved; design criteria, production decisions and evaluation evidence. Formal assessment use remains Teacher to confirm.
20	Project/folio	Course synthesis, review and evidence export	Review completion across all six modules, 18 packages and eight folio stages. Students evaluate one changed decision, identify evidence limits, export their local folio and check the assessment-status boundary.	Communication and evaluation of evidence-based food-selection and food-design decisions.	Final synthesis/evaluation, local folio export and teacher review of named evidence. No website submission claim.

Evidence, feedback and support: Each section has 10 feedback-rich MCQs, one scaffolded long response, an Applied Learning Activity, a visual, a media/equivalent pathway and a named folio handoff. Use vocabulary banks, chunking, sentence stems and accessible response modes without lowering the evidence demand. Full routes, sources, adjustments and cross-links are retained in the machine manifest and site map.
